About Us

Turanlar Group is a family-owned company founded in 1953 by the Hasan, Fuat, and Nihat Turan brothers. Established in 1995 in Vezirköprü, Vezirköprü Orman Ürünleri is one of the largest integrated industrial facilities in the Black Sea Region. It has been the pride of its region and employees owing to its proximity to raw materials, and domestic and foreign target markets. It is an integrated facility with the products it manufactures, including Glue, MDF, Particle Board, Melamine Faced MDF and Particle Board, Laminate Flooring, Plywood, exotic and construction timber, battenboard, and industrial wooden formwork systems. In addition, it is one of the most prestigious filter paper manufacturers worldwide, and the only one in Turkey, with the PeliPaper brand. The factory purchased through privatization in 1996 manufactures the products of Peli Parke, Peli Kapı, and Peli Paper with an equity investment exceeding 100 million euros. Peli Parke is produced within the Turanlar Group of Companies. Turanlar Group, which employs approximately 1,500 people including 500 people in the hymen, sanding, homag, packaging, and storage processes of parquet production, is known for putting the expression “Peli” from the “Pelit” tree in Turkish before its brands. Turanlar Group, which operates in the sector, using the Peli brand, carries out 20% of the total sectoral production with 120 million m2 annually and holds a market share of 20% when imported products are included. The group conducts its production activities through Vezirköprü Orman Ürünleri ve Kâğıt Sanayi A.Ş., Pelit Arslan Kontrplak Fabrikası A.Ş. and Pelit Kalıp Sistemleri. While Pelit Arslan produces plywood, laminate, and fireproof B1 class compact laminate and plywood that must be used particularly in bus, train, and yacht decoration, Vezirköprü factory supplies chipboard, melamine-coated chipboard and MDF for Peli Parquet considered the showcase of the group of companies, and the furniture sector.

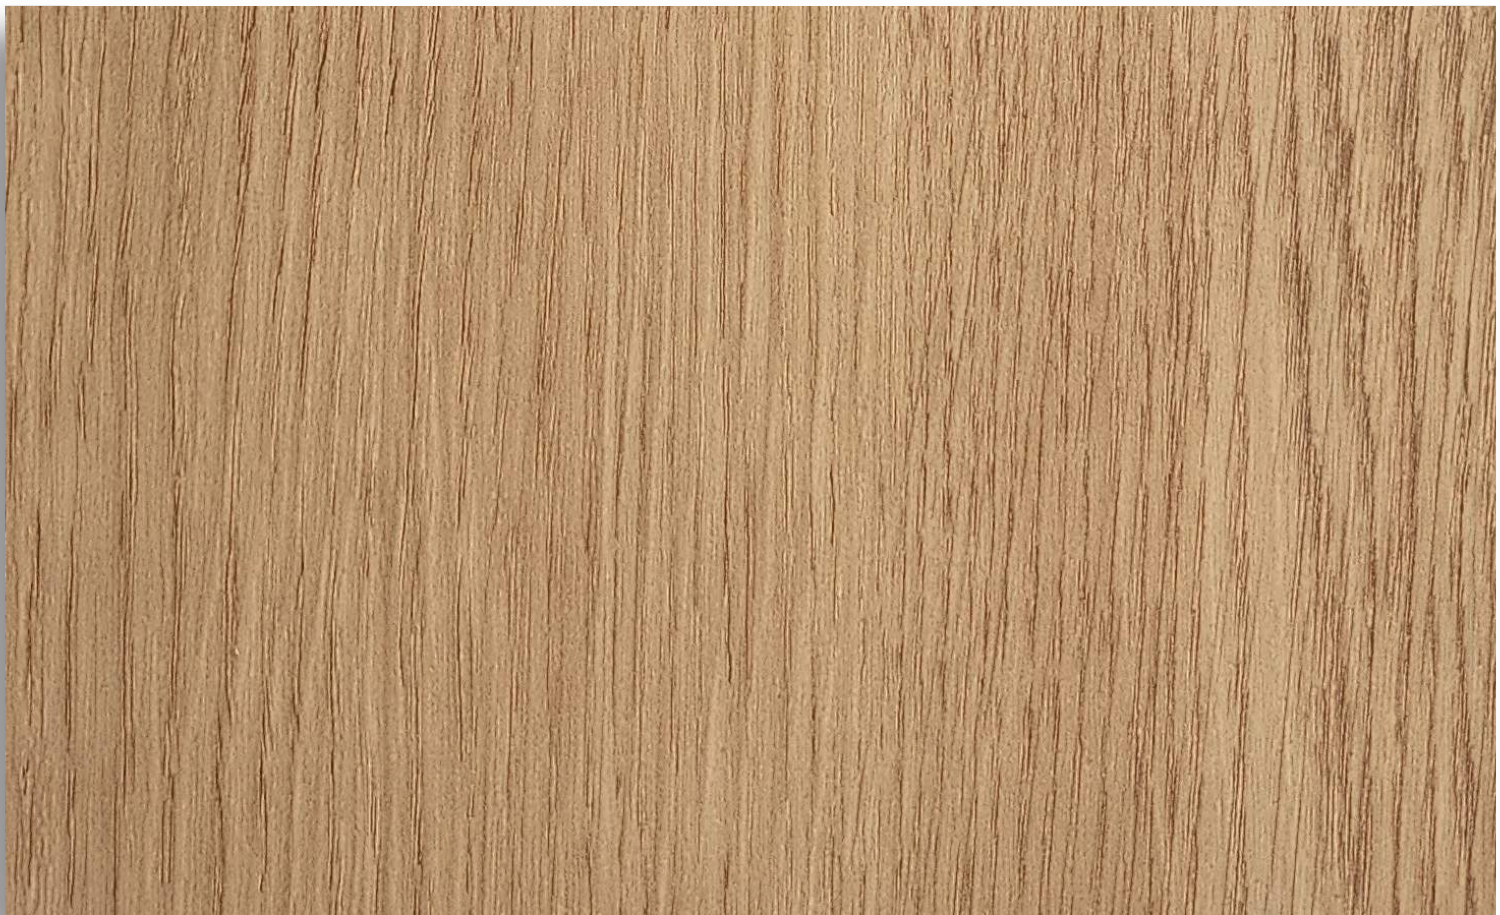

Our Company Policy

Our company policy is based on core values such as our vision, goals, and ethical and moral values. By constantly renewing ourselves and acting to offer different products, we have become one of the prominent followers of change and development in the world. We are trying to establish and strengthen the steps of our fundamental policy with the strategies we have created in different fields.

Our Vision

We wish to introduce parquet to every place we live in. We aim to utilize any technological opportunity for better production, take this natural material, which is open to innovations, comfortable, elegant, and useful, to all spaces that connect with our lives, create a product appealing to all pleasures, and offer you models, which meet high-quality standards, with economical options. As the parquet brand offering the broadest product range in Turkey, we evaluate you as the most important strategy. We prioritize to include all kinds of products our customers will need in our portfolio.
